

NA'VI - ENGLISH AUDIO DICTIONARY *v.* 2.028

TARONYU & FTIAFPI

This dictionary was made by collected the entries formed in this dictionary and adding to them hyperlinks to the sound files made available by Ftiafpi and omängum fra'uti in this thread. Please let me know of errors in this thread. Sound errors can be noted in Ftiafpi's thread. We hope that this will be a help to those who need it.

Bold indicates Na'vi word. *Italics* indicate English definition. Underlining indicates stress. Plain text indicates grammatical categorisation: parentheses indicate further notes. <x> represents an infix, where *t*<1><2>*ar*<3>*on* are the positions. Proper nouns have been capitalised. – and + indicates that an affix or adposition can fall on either side. Knowledge of lenition processes will be assumed. For more on inflections, see this document.
